

Raw Brass And Bronze

This is a hand applied brass finish.

Raw brasses and bronzes are known for their beautiful appearances and ageing or 'living' qualities.

These raw finishes will age and patina over time and are a classic go to finish for high end fixtures and fittings.

The colours and tones can vary from high lustre mirror polished yellow to matt black. The colour development over time is highly dependant on the environment.

How to look after raw brass and bronze finishes from Yardley Bespoke

We recommend the occasional use of a soft damp cloth to clean the finish.

Please do not use chemicals or abrasive cleaning products as they will escalate the speed in which the surface will alter.

Application of a non silicone based natural furniture wax such as Aristowax Woodsilk® is recommended.

If in doubt, please contact us for more information.
